Different voices help Healthier Washington describe why change is needed

Dear Feedback Network Member,

When we talk about the Healthier Washington initiative we sometimes use terms like transformation, integration, and strategies. We try describing a vision of achieving improved health, better care, and lower costs in Washington State, but even this may not paint a clear picture.

We are eager to make the picture clearer. In the weeks and months to come we will share a series of videos that allow the voices of people from many communities describe how they are part of the changes occurring in our state and why those changes are important.

Our first video in this series, *Achieving Better Health and Better Care*, is available on the [Healthier Washington website](http://healthierwa.hca.wa.gov). We will let you know as the next video in the series becomes available.

Thank you for your interest in a healthier Washington.

Our website has changed! [Come and see!](http://healthierwa.hca.wa.gov)

Easier navigation, better readability and timely updates are some of the improvements.
